

Highlights

Council Meeting
January 2026

Administration

Videoconference

The MRC is proud to announce significant improvements to the accessibility of Council of Mayors meetings.

Starting with the February meeting, citizens will be able to attend the meeting via videoconference and interact with elected officials during the question period provided for this purpose.

The Council meeting will then be available on the MRC website for viewing at any time.

Full details will be provided in the coming days to facilitate participation in public meetings.

Fighting Poverty

The action plan to combat poverty and social exclusion, adopted by the Council of Mayors at its last meeting, will provide a framework for the MRC's community development efforts. In particular, the plan provides a framework for the Quebec Social Initiatives Fund, which offers financial support for eligible projects.

Administration (cont.)

Urban planning

The MRC has retained the services of Guilbert Urbanisme to assist municipalities in updating their land use by-laws. The initiative will help them amend their existing municipal regulations to align them with the MRC's land planning plan.

Economic Development

The **Quebec Social Initiative Fund (FQIS)** is back! Contact Joanne Jones, Community Development Agent, for your projects or visit our website for more details.
